Education

SATEC @W. A Porter CI – Math, Science and Technology Specialized — Toronto, Ontario
Ontario Secondary School Diploma - 96% Average — *2018 - 2022*

Experience

Full-Stack Developer Intern: *Project Lead* — May 2022 – September 2022
STEM-AWAY

- Committed to **Discourse**, an open-source project with **800+** committers
- Led the project, managing 5 other interns to create a plugin with 150+ users
- Integrated an advanced plugin using **JavaScript, Handlebars, Ruby on Rails,** and **CSS**

Coding and Game Theory Intern — April 2022 – July 2022
TAC Sports – LSA Academy

- Built, hosted, and monitored the main website of **TAC Sports**
- Taught over **150** students **Scratch, Python, ReactJS, HTML, and Tailwind CSS** for over **40 hours** a week
- Organized and led a group of **10** staff members in the LSA Branch

Peer Tutoring — October 2021 – Present
SATEC W.A Porter

- Collaborate in meetings with other tutors and teachers
- Assist students with their assignments, homework and learning strategies
- Educate **200+** students in Mathematics, Computer Science, English and Science

Projects

Note Taking Plugin | *Discourse, HandlebarsJS, Ruby on Rails, JavaScript, CSS*

- Note Taking feature is a **Discourse plugin** creating a branch from the admin page for users to add personalized notes, daily tasks and study timers
- Lead and managed a team of **5 members** to deploy the **App Design Process**
- Implemented a **HandlebarsJS** server to **scrape** website design template from Discourse, **Ruby on Rails** with **JavaScript** to connect **server-side applications** and **SCSS** for styling

Weather Whenever | *WeatherAPI, Firebase, React, Chakra-UI, Figma*

- Weather Whenever is a **web app** that is built with an accessible design to produce accessible weather details and help users plan weather appropriate outfits
- Developed a fast feature-rich **RESTful API** using **React**, and **WeatherAPI** to display personalized outfits and weather details
- Implemented **server-side database** advanced user authentications system with **Firebase Authentication** to complete **CRUD** operations that has been used by over **100 users**

NimbleCoder | *Svelte, TypeScript, HTML, TailwindCSS, SQLite*

- Developed a web app which has gained over **300 views** that allows for developers to practice typing code in a variety of different languages and time constraints
- Used **Svelte, HTML and TailwindCSS** to build out the front-end, and **SQLite** to store typeable code developing a design for optimal eye focus
- Used **TypeScript** to perform **key pressed algorithm** and **file read algorithm**

Technical Skills

Languages: Python, C++, JavaScript, TypeScript, HTML, CSS

Frameworks: NodeJS, AJAX, React, Bootstrap, Bulma, APIs, Tailwind, Svelte, TypeScript

Databases: MongoDB, SQL-Injections, SQLite, MySQL
